NET CONTENTS 1 GAL, 41 FL OZ (5 LITERS)
NET WEIGHT 13.8 LB (6.25 KG)

THIS CONTAINER TREATS UP TO 3.88 ACRES

QUELANT®-Ca 5-0-0 With 5.7% Calcium

Quelant-Ca is a proprietary blend of nitrogen derived, in part, from protein hydrolyzed to its constituent amino acids – calcium and boron. Quelant-Ca is formulated to help prevent and correct calcium deficiency in plants and maintain turgidity and quality of turfgrass.

RATE:

Apply 1–2 oz. per 1,000 sq. ft. every 7–14 days or 3 oz. per 1,000 sq. ft. when needed to correct calcium deficiency. Increase rate and irrigation water when treating unfavorable soil conditions, but do not exceed 8 oz. per 1,000 sq. ft. per application.

Store in original container in a cool, dry area. Keep out of the reach of children. Apply as directed. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/turf, and rinse any product that lands on the driveway, sidewalk or street back onto the lawn/turf.

Quelant-Ca is tank mix compatible with most soluble fertilizers, insecticides, herbicides, fungicides or plant growth regulators. If you are unsure of the compatibility of your specific tank mix, conducting a standard jar test prior to mixing is recommended.

This product is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by plants. A lawn will typically utilize 1 to 4 lbs. of nitrogen per 1000 sq. ft. per growing season. When used as directed, this product will supplement your regular fertilizer program by providing 0.004 to 0.033 lbs. of nitrogen per 1000 sq. ft. Consult your local extension office for questions regarding a regular fertilization program.

CAUTION: Contains boron. Boron is recommended for all crops where boron may be deficient; however, excessive application to susceptible crops may cause damage.

Limited Warranty: Seller offers for sale the product Quelant-Ca. There are no warranties of merchantability of fitness for a particular purpose which extend beyond the description of the product in this label and liability of Seller is limited to replacement of any product which does not meet these specifications. Suggestions for use and information on results obtained with its use are assumed by the manufacturer to be reliable. Since conditions of use are outside the control of Seller, the buyer is responsible for all results, including injury and damage stemming from the use of this product alone or in combination with other materials.

Information concerning the raw materials composing this product can be obtained by writing to the Guarantor listed on this label and referring to the batch number found on this container. Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfc.org/metals.html>

In MS: Low Analysis Fertilizer.

DANGER: Causes serious eye damage. Harmful if swallowed.

First Aid:

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Immediately call a POISON CENTER or doctor.

Precautionary Statements:

KEEP OUT OF REACH OF CHILDREN. Do not eat, drink, or smoke when using this product.

Wear protective gloves and eye/face protection.

Safety data sheet available on request. Use product only as directed.

Storage: Store in a well-ventilated space. Keep container tightly closed. Keep cool.

Disposal: Dispose of contents/container in accordance with local/national regulations.
