

MACRO-SORB IN THE TANK

FASTER AERATION RECOVERY

AERATION RECOVERY PROGRAM:

Pre-Aeration (2-4 days): Apply 6 oz. of **Macro-Sorb Radicular** per 1,000 sq. ft.

Post-Aeration (2-4 days): Apply 6 oz. of **Macro-Sorb Radicular** per 1,000 sq. ft.

Lightly water-in all applications with a few turns of the irrigation heads

10 days post-aeration with 5/8 inch tines

Applied pre- and post-aeration, Macro-Sorb Radicular promotes strong root growth and speeds recovery from cultural practices

Macro-Sorb Radicular is formulated with a proprietary complex of L-amino acids designed for maximum performance as a root zone application.
